& Design
Awards

RETHINKING THE FUTURE

RTF provides an interactive platform of the highest standard, acknowledging the projects amongst creative and influential industry professionals.

Born out of the need to create 'Fresh Perspectives' on international trends in Architecture and Design. RTF is now a well-established platform that is the go-to platform for millions of people around the World.

On behalf of the Re-thinking The Future, I would like to congratulate you on this achievement, and thank you for your contribution in defining new architectural language with your visionary project.

The property, consisting of a main house, a separate guest house, a studio, and a spacious outdoor area with a garden and pool, was to undergo a complete transformation.

1. Overall Concept: *bconnected* was tasked with designing a creative and stylish home that brings a vibrant and welcoming atmosphere through a bold color concept and innovative design solutions. The color scheme was to be vibrant yet harmonious, integrating both the interior and exterior spaces, ensuring a seamless flow between them.

GADA21960

Living area

The living level of the property is an open space naturally divided by subtle height differences. The entire area opens up to the garden and pool, seamlessly integrating the lush outdoor landscape into the interior. The living and dining rooms are defined by a vibrant interplay of bold colors. Large artworks, custom-designed rugs, and a selection of unique furniture pieces, combining collectibles and designer brands, create a living comfort that expresses creativity and passion. The pink kitchen, with its coral-red backsplash and striking red Vola faucet, serves as the perfect gathering place. The colors of the living area extend harmoniously into the garden furniture, blurring the boundaries between indoors and outdoors.

2. Layout and Architecture: The property’s layout, especially the main living area, was to be open and spacious. Subtle height variations were intended to create natural divisions between the spaces without sacrificing openness. The living area was to be designed in such a way that it opens seamlessly to the garden and pool, blending the home’s interior with its natural surroundings.

3. Interior Design and Décor: A key requirement was the personalized design of all interior spaces, balancing functionality and aesthetics. The living and dining areas were to feature bold colors, large artworks, and custom-designed rugs, creat-

ing a lively and dynamic environment. The furniture was to include a mix of unique collectibles and designer pieces, fostering a creative and stylish living experience.

Bedrooms

Each bedroom has been individually tailored to the users, incorporating the joy of color in a more subdued form while staying true to the overall design concept.

Wallpaper, custom-built wardrobes, and rugs provide the foundation for a harmonious space that blends functionality and spirit. Highlights like walk-in closets are perfectly designed to meet the residents' needs. Thoughtfully selected decorative details make the design livable and complete the overall experience.

The bold bathrooms are equally stunning, featuring vibrant, lightning colors that make a daring statement. These spaces are designed not only for function but to energize and inspire, adding a striking and dynamic touch to the home.

4. **Bedroom Design:** Each bedroom was to be individually tailored to the residents, continuing the home's vibrant color theme but in a more subdued manner. Essential elements included custom-built wardrobes, bespoke rugs, and walk-in closets, providing both comfort and practicality.
5. **Guest House:** The separate guest house was to serve as an independent unit with a living area, a small kitchen, a bedroom, and a bathroom. Importantly, it was designed to have a unique style distinct from the main house, offering guests a unique experience while still reflecting *bconnected*'s overall design signature.
6. **Collaboration with Artists and Craftsmen:** A major component of the project was the collaboration with renowned artists and craftsmen. Artist Julio Rondo was to create bespoke artworks that complemented the home's color scheme.

Additionally, a renowned rug weaving company in Madrid was engaged to produce custom-designed rugs to the highest standard of craftsmanship.

GADA21960

The bconnected interior design team is deeply grateful to be able to realise this bold project. This project was only possible thanks to our many years of experience and the great cooperation with partners such as the artist Julio Rondo, who created individual works of art especially for the colour concept of the house, as well as the renowned carpet weaving company in Madrid, which implemented our extraordinary designs with great patience. It was a pleasure for everyone involved to bring this unique home to life.

bconnected®

Founded in Mallorca in 1993 by Christine Leja and Andree Mienkus, **bconnected Architecture & Design** is an internationally recognized architecture and design studio. The firm stands out for its unique designs resulting from a balanced and surprising combination of textures, colors, volumes, and styles. Properties designed by Bconnected have become collectible pieces. Their works tell stories through a colorful, inspired, bold, energetic, and empathetic approach. When asked how they constantly reinvent themselves, **Christine Leja** likes to quote Mark Twain: "Whenever you find yourself on the side of the majority, it is time to pause and reflect."

Conclusion: *bconnected* was tasked with executing a bold and creative project that not only stands out for its aesthetic appeal but also for its functionality. The requirements called for a high level of individuality and innovation to create a home that reflects the personality of its residents while showcasing exceptional design and high-quality craftsmanship.
